Jews Have Controlled Iran for Over 1000 Years

Crown Prince Mohammed Reza Pahlavi

Conclusion:

So could Iran and Saudi Arabia really be Jewish-controlled, controlled opposition? It seems so. It appears that Iran and Saudi Arabia have always been controlled opposition, probably to foment conflict and unrest in the Middle East, which subsequently raises oil prices. Who do you think controls all of the oil companies now? Jews, or non-Jews?

Finally, we learned above that the Jews created Hezbollah. Ron Paul says that Hamas was created by Israel as a buffer to Saddam Hussein. Is there anything not controlled and run by the Jews anymore? The Jews have basically admitted that anything that happens—which is covered by mainstream media, of course—is not an accident: it is created by them.

Freemasons have been on both sides of every world war. The next one will be no different. They use wars to cull the human herd and make money. Hell on Earth is the Satanist's dream. Partisans on both sides are committing suicide.

Disclaimer – I don't agree with Menez's contention that Israel casualties were faked. Zionists have no compunction about killing Jews. They killed millions in the holocaust.

Building on Henry's article originally from October 4, 2010, with the title "*Iran Also Controlled by Satanists*" and re-published October 25, 2023, and re-titled "*Israel and Iran are Both Run By Freemasons Plotting WW3*," I will make the assumption for brevity's sake that the reader knows that Jews started Freemasonry. Yes, every aspect of Freemasonry is Jewish. Freemasonry was started as a way to make the goyim fall in lockstep with the satanic, Talmudic Jews.

With that preface out of the way, it will be easier to understand this article published on Miles Mathis' website on June 3, 2019, by author "Donny Ahzmond". <http://milesmathis.com/iran.pdf>. Essentially, the article traces the history of Iran for the past 1000 years to the 11th century, where the famous Komnene family had its origins.

"One of the first known family members was Nikephoros Komnenos, who was governor of Vaspurakan in the 11th century. Vaspurakan comprises modern-day southeast Turkey and northwest Iran, where Khamenei is located. At the very least, we've established that Supreme Leader Khamenei bears the name of a town that was in all likelihood named after the ancient Komnene family who also originated in that region."

Miles Mathis has suggested that the name Cohen or Kohen could be a variant of Komnene, by way of Komen, and the author Donny Ahzmond mentions that in his article. But Ahzmond does much more genealogy in his 2019 article: he links Jews as rulers of "the Safavid dynasty, which lasted from 1501 to 1722 and encompassed what is now Iran, Armenia, Azerbaijan, and parts of the North Caucasus, Turkey, Iraq, Afghanistan, and Syria, and beyond." Basically, the Safavid dynasty was a continuation of the Komnene dynasty and was followed by the Zand dynasty. The commonality and continuity between all three dynasties: Ahzmond shows with genealogy in his article that they were all run by Jews.

In the 20th century, the crypto-Jewish reign of Iran continued with the Pahlavi dynasty. First came Reza Pahlavi in 1921, followed by his son Mohammad Reza Pahlavi, who ruled until he was overthrown by Ayatollah Khomeini in the Iranian Revolution of 1979. Mohammad Reza Pahlavi ruled Iran from 1941 until 1979, alongside his gay Jewish lover Ernest Perron, as mentioned in Ahzmond's article.

FULL CIRCLE FROM KOMNENE TO KHOMEINI

We're told that Sayyid Ruhollah Mousavi Khomeini became the Supreme Leader of Iran in 1979. But note his second-to-last name Mousavi. Ahzmond explains: "When you search the surname Mousavi, Wikipedia takes you to this page, with a list of notable people who have that surname, including Khomeini. But it doesn't tell you anything about the name itself, such as its origin or meaning. Strangely, the "See Also" section at the bottom, it links you to this page for the surname Al-Musawi. It's strange because it's evident this is the same surname as Mousavi, listing many of the same people as the Mousavi page."

Wikipedia lists Khomeini as a member of this family and then asserts, plain as day: "...he descended from the Safavid dynasty."

The Wikipedia page also lists Abbas al-Musawi, founder of HEZBOLLAH, as a family member.

ON TO MAHMOUD AHMADINEJAD

And as for the nascent 21st century, Iran's most famous and prolific leader has been Mahmoud Ahmadinejad. Could he be Jewish as well? The Telegraph, a mainstream newspaper, seems to think so:

<https://www.telegraph.co.uk/news/worldnews/middleeast/iran/6256173/Mahmoud-Ahmadinejad-revealed-to-have-Jewish-past.html>

"A photograph of the Iranian president holding up his identity card during elections in March 2008 clearly shows his family has Jewish roots.

A close-up of the document reveals he was previously known as Sabourjian – a Jewish name meaning cloth weaver. The short note scrawled on the card suggests his family changed its name to Ahmadinejad when they converted to embrace Islam after his birth.

The Sabourjians traditionally hail from Aradan, Mr. Ahmadinejad's birthplace, and the name derive from "weaver of the Sabour", the name for the Jewish Talit shawl in Persia. The name is even on the list of reserved names for Iranian Jews compiled by Iran's Ministry of the Interior."

JEWISH CONTROLLED OPPOSITION

Donny Ahzmond's article tells us all of the above about the continuous 1000-year Jewish reign of Iran. It even posits that the Jewish roots of the Safavids and Komnenes go back to 309 A.D. in modern-day Iran, which was once part of the Persian Empire.

In an update to the article posted 10 days later on June 13, 2019, we learn that Uber CEO Dara Khosrowshahi is a Pahlavi and that Dara's wife is Sydney SHAPIRO. Dara's brother is Kaveh Khosrowshahi. "A whitepages.com search finds that Kaveh is related to Kathleen Grant Khosrowshahi of Seattle, as well as James Dover Grant," otherwise known by his pen name, Lee Child, the author of the Jack Reacher series of novels. It's a small, interconnected club, innit? And you ain't in it.

A parallel investigation on Jews running oil-rich, supposedly Muslim countries like Iran, would inevitably take you to information on the Kingdom of Saud, where we get mainstream articles like <https://www.jpost.com/middle-east/iran->

CONCLUSION

So could Iran and Saudi Arabia really be Jewish-controlled, controlled opposition? It seems so. It appears that Iran and Saudi Arabia have always been controlled opposition, probably to foment conflict and unrest in the Middle East, which subsequently raises oil prices. Who do you think controls all of the oil companies now? Jews, or non-Jews?

The Jews have basically admitted that anything that happens—which is covered by mainstream media, of course—is not an accident: it is created by them.

So how easy would it have been for Israelis to have impersonated Hamas on October 7, “captured” several hundred Israelis, and faked the crime scenes of Hamas attacks with fake blood and mannequins? Israel is grudgingly admitting now that they let their guard down for 7 hours to allow Hamas into Israel to kill hundreds of Israelis. Naw, I don’t believe that for a minute. I don’t think any Israelis were killed on October 7. We know perfectly well who is running these false flags and “Pearl Harbor”-like events such as 9/11 and the October 7 “massacre.”
